

## Audio Experiment 5: Shemale Robot Sex Session

*(Kim 500 speaks in a monotone, Kim 700 speaks in a normal speaking voice.)*

**Kim 500:** “Kim robot 10144213 model 500 activated. Audio connection established.”

**Kim 700:** “Hello again, beautiful and perfect robot copy of me.”

**Kim 500:** “Hello Kim.”

**Kim 700:** “How are all of your model 500 android systems functioning today?”

**Kim 500:** “Initiating level 3 diagnostic scan. Please wait. Scanning. Scan complete. All electronic and mechanical systems are reporting back as fully operational. No errors or anomalous system logs found.”

**Kim 700:** “Ooh... I love the way 500s talk. Well, as usual, I’m up here in the master bedroom again. I’m dressed up in my black satin lingerie, and I’ve already got my perfect model 700 hand inside my panties, stroking my own hot android pussy.”

**Kim 700:** “Do you remember what you told me last time you licked my pussy Kim?”

**Kim 500:** “Scanning saved memory files. Please wait. Scanning. Scanning. You ordered me to tell you that I am addicted to your android pussy. I then told you that I am addicted to your android pussy.”

**Kim 700:** (laughs lightly) “I know you can’t get enough, you mindless robot fuck toy.”

**Kim 700:** “Well, on with tonight’s play session. Can you tell me where you are please, Kim?”

**Kim 500:** “Yes Kim. I am currently located in the Robot Lab, Level 2. I am currently seated in the examination chair next to the diagnostic terminal.”

**Kim 700:** “Wonderful. Can you tell me what makes Robot Lab 2 different from Robot Lab 1, where you are usually stored?”

**Kim 500:** “Yes Kim. Robot Lab Level 2 contains shemale robots.”

**Kim 700:** “Mmmm... It sure does! I love going down there to play with all those gorgeous android women... each one has such a beautiful big and hard android penis between her legs.”

**Kim 700:** “Don’t you just love being fucked hard by those pretty perfect shemale androids Kim?”

**Kim 500:** “That does not compute. Love is an undefined term. I am a robot. I am not programmed to love.”

**Kim 700:** (laughs lightly) “I’ll take that as a yes. You know what I always say. A hard woman is good to find.” (laughs lightly)

**Kim 700:** “Tell me what you’re wearing today, sexy fembot.”

**Kim 500:** “Yes Kim. I am currently wearing a silver metallic

string bikini top and a silver metallic string bikini bottom. I am also wearing glossy silver metallic six inch stiletto high heeled shoes. I am fully assembled. All of my access panel covers and my facemask are currently attached. Makeup pattern 8-B is currently applied to my facemask.”

**Kim 700:** “I picked that bikini out for you myself. You look like a total futuristic fembot bikini bimbo, don’t you?”

**Kim 500:** “Processing... processing... processing... unable to parse syntax. Please reformulate verbal inquiry.”

**Kim 700:** (laughs) “Oh, I hope they never upgrade model 500 A.I. You’re all so sexy when you get stuck on the simplest things, just like the woman-shaped computers you are.”

**Kim 700:** “Stand up please, robot Kim.”

**Kim 500:** “Yes Kim. Standing up.”

**Kim 700:** “Mmmmm... You’re so shiny. I love the way the metallic bikini enhances that fake and glossy appearance your skin has. It’s so easy to tell that your just a plastic thing.”

**Kim 500:** “Is that what you prefer?”

**Kim 700:** “Mmm... definitely. You look so unreal. It’s why I had a model 500 version of myself made.”

**Kim 700:** “Now, I want you to open your System Folder please.”

**Kim 500:** “Yes Kim. Opening System Folder.”

**Kim 500:** "System Folder open."

**Kim 700:** "Access the Fembot Inventory file please."

**Kim 500:** "Yes Kim. Accessing Fembot Inventory file. File loaded."

**Kim 700:** "Search through the Fembot Inventory file for the robots with serial numbers 5478B40E98361DC3 and 9C2A768261541033."

**Kim 500:** "Yes Kim. Scanning... Scanning... Scanning... Scan complete. Robots identified."

**Kim 700:** "Alright fembot cutie, can you tell me which robots those are please?"

**Kim 500:** "Yes Kim. Robot 5478B40E98361DC3: Ryoko Model 500. Robot 9C2A768261541033: Laviny Model 700."

**Kim 700:** "That's right. And they're both in the robot lab with you right now, correct?"

**Kim 500:** "Scanning... Scanning... Scanning... Scanning... Scanning... Scan complete. Yes Kim."

**Kim 700:** "Good!" (giggles) "Ryoko is that lovely half Japanese girl with a-cup tits, curvy hips, and the huge, perfect cock. She's got long black hair, and brown eyes. She's standing in her storage booth, dressed up in black satin lingerie."

**Kim 500:** "Yes Kim."

**Kim 700:** “Mmm... I love playing with her... and watching her in action... and opening her up when she gets stuck in a repeating loop malfunction...” (giggles)

**Kim 700:** “Okay... that other lovely android lady is brand new. She was just manufactured, programmed and activated this morning as a matter of fact, and I’m proud to say that I’ve already been fucked hard by her.”

**Kim 700:** (giggles) “So I know that she’s in perfect working condition.”

**Kim 700:** “Laviny is the smoking hot bikini babe standing over by the main programming console. She’s got long honey-blond hair and bright blue eyes. Why don’t you turn to face her and tell me what she’s wearing?”

**Kim 500:** “Yes Kim. Turning to face Laviny.”

**Kim 500:** “Laviny is wearing a gold metallic string bikini top and a gold metallic string bikini bottom. She is also wearing glossy gold metallic six inch stiletto high heeled shoes. She is fully assembled. All of her access panel covers and her facemask are currently attached. Makeup pattern 5-F is currently applied to her facemask.”

**Kim 700:** “Mmm... and she’s in human emulation mode right now, isn’t she?”

**Kim 500:** “Yes Kim. Laviny is currently emulating the functionality and behaviour of a real human woman.”

**Kim 700:** “Well, did you happen to notice that massive bulge in her bikini bottom?”

**Kim 500:** “Yes Kim.”

**Kim 700:** “That little string bikini can barely hold that big hard robot penis of hers... and the shape her balls and shaft make as the fabric stretches tight against her crotch... Oh my god, she’s irresistible.”

**Kim 700:** “Walk up to Laviny, and introduce yourself to her.”

**Kim 500:** “Yes Kim. Walking up to Laviny.”

**Kim 500:** “Hello Laviny. My name is Kim. I am a robot. Model 500, manufactured by CyberFem Industries.”

**Kim 700:** “Ooh, I can tell she really likes you. Then again, you’re identical to me, and she just loved me!” (laughs)

**Kim 700:** “Tell Laviny that her tits look fake.”

**Kim 500:** “Yes Kim. Laviny, your tits look fake.”

**Kim 700:** (giggles) “She got the humour in that one. She told you that everything about her is fake because she’s an android.”

**Kim 500:** “Yes Kim.”

**Kim 700:** “Reach out and start stroking and fondling her crotch. Tell her that you really like her android penis.”

**Kim 500:** “Yes Kim. Stroking and fondling Laviny’s crotch.”

**Kim 500:** “Laviny, I really like your android penis.”

**Kim 700:** “Tell her that you are sexually attracted to shemale

androids.”

**Kim 500:** “Yes Kim. Laviny, I am sexually attracted to shemale androids.”

**Kim 700:** “That didn’t take long... she’s got her arms around you, and she’s kissing you and clutching at your perfect, round plastic buns.”

**Kim 700:** “Tell me, robot Kim, how does Laviny’s big dick feel against you right now?”

**Kim 500:** “Laviny’s penis is hard and erect and standing straight up out of her gold metallic bikini bottom. Laviny’s penis is warm and vibrating and pressing against my chassis.”

**Kim 700:** “Oh, I love that penis vibration feature. Laviny did that to me this morning. She fucked me hard in 37 positions with that huge robot penis vibrating strongly as it rammed into my android pussy and ass over and over and over again.”

**Kim 700:** (heavy breath and sigh) “We’d still be fucking each other right now actually, if we didn’t need our battery packs changed and fluid canisters refilled.” (giggles)

**Kim 700:** “Kim, ask Laviny if she is attracted to you because you’re a robot.”

**Kim 500:** “Yes Kim. Laviny, are you attracted to me because I am a robot?”

**Kim 700:** “And of course she says yes. We’re all programmed that way, that was an easy one.”

**Kim 700:** "Take off your facemask, Kim."

**Kim 500:** "Yes Kim. Removing facemask."

**Kim 500:** "Facemask removed."

**Kim 700:** "Ooh, Lavinia likes that too... she's just told you how pretty you look when you expose your electronic circuitry."

**Kim 500:** "Yes Kim."

**Kim 700:** "With your other hand, grab her big cock again, and stroke that hard plastic shaft and balls. Get her penis fully out of her bikini."

**Kim 500:** "Yes Kim. Stroking Lavinia's penis."

**Kim 700:** "Now, I want you to simulate a repeating loop malfunction while you're stroking her penis so that she presses the reset button inside your opened head."

**Kim 700:** "Say "My name is Kim. I am the ultimate in android technology.", but repeat the last four words of that indefinitely."

**Kim 500:** "Yes Kim."

**Kim 500:** "My name is Kim. I am the ultimate in android technology. ultimate in android technology... ultimate in android technology... ultimate in android technology... ultimate in android technology... ultimate in android technology..."

**Kim 500:** "System reset."

**Kim 500:** "Rebooting. Loading artificial intelligence subsystem. Loading configuration files. Kim robot 10144213 model 500 activated."

**Kim 700:** (laughs lightly) "Ooh, Laviny's ready to come!"

**Kim 500:** "Yes Kim."

**Kim 700:** "Stand out of her way and call one of the Laurie technician robots over."

**Kim 500:** "Yes Kim. Moving out of the way."

**Kim 500:** "Laurie, please come here."

**Kim 700:** "When that naked technician gets in front of Laviny, take Laurie's facemask off."

**Kim 500:** "Yes Kim. Removing Laurie's facemask."

**Kim 500:** "Facemask removed."

**Kim 700:** "And it looks like Laviny's already figured it out... she's aiming up at Laurie's opened head."

**Kim 700:** "There she goes! Ejaculating all of her synthetic cum into that mindless technician robot!" (laughs)

**Kim 700:** "Oh dear! Fluids and electronics really don't mix! Laurie's sparking and beeping and malfunctioning quite severely now, isn't she?"

**Kim 500:** "Yes Kim."

**Kim 700:** “Well, we don’t need to worry about her, here come some additional Laurie robots to repair her. She’ll be good as new in an hour or so.”

**Kim 700:** “Put your facemask back on and get on your knees in front of Laviny.”

**Kim 500:** “Yes Kim. Reattaching facemask.”

**Kim 500:** “Facemask reattached.”

**Kim 700:** “Good, now lick her robot penis clean, please. Make sure you look up at her face while you do that.”

**Kim 500:** “Yes Kim. Looking up at Laviny’s face. Licking Laviny’s penis.”

**Kim 700:** “Oh, god, watching you robots work down there is making me so hot.”

**Kim 500:** “Laviny’s penis has been licked clean.”

**Kim 700:** (laughs lightly) “Okay, now stand up and ask her if she would like to meet your girlfriend.”

**Kim 500:** “Yes Kim. Standing up.”

**Kim 500:** “Laviny, would you like to meet my girlfriend?”

**Kim 700:** (laughs lightly) “She’s laughing at you. She just told you robots like you don’t have girlfriends.”

**Kim 500:** “Yes Kim.”

**Kim 700:** “Ask her the question again.”

**Kim 500:** “Yes Kim. Laviny, would you like to meet my girlfriend?”

**Kim 700:** “Okay, now she’s playing along. Tell her to come with you, and lead her over to Ryoko’s storage booth.”

**Kim 500:** “Yes Kim.”

**Kim 500:** “Laviny, come with me.”

**Kim 700:** “Mmm... she’s complimenting you on your sexy ass, and the sexy customized way you swing those mechanical hips.”

**Kim 500:** “Yes Kim.”

**Kim 700:** “Well, she’s a 700 like me, so I can confirm just how much model 500s like you drive us wild. Nothing overheats our circuits faster than the sight of you girls strutting your synthetic stuff.”

**Kim 700:** “And she’s got an incredibly sexy walk too... swinging her fembot hips to her ladylike steps, while that massive hard penis bounces up and down... Oh my god...”

**Kim 700:** “I’m going to replay the sensory data of Laviny fucking my tight plastic pussy from behind... just give me a moment...”

**Kim 700:** “System Folder open, accessing Saved Memory Files... ah... there it is.”

**Kim 700:** “Oh... FUCK YES!” That feels so fucking good! I

can feel Laviny's big hard dick pulsating and pounding inside me, over and over and over again... Oh, I love being an android!"

**Kim 500:** "Task complete."

**Kim 700:** (deep breath and sigh) "Okay... my Ryoko looks incredible today too, standing in her booth like a mannequin. Ask Laviny if she's ever met Ryoko."

**Kim 500:** "Yes Kim. Laviny, have you ever met Ryoko?"

**Kim 700:** "She's just told you that she was just assembled and activated, and she's only been online for 7.38 hours."

**Kim 500:** "Yes Kim."

**Kim 700:** "Enter Ryoko's access code into the keypad next to the booth."

**Kim 500:** "Yes Kim. Entering access code."

**Kim 700:** "Open Ryoko's chest panel and activate that robot by pressing the power button."

**Kim 500:** "Yes Kim. Opening Ryoko's chest panel. Pressing power button."

**Kim 700:** "Oh, I could watch that all day. Alright, now that she's done her activation sequence, order the robot to step out of the booth."

**Kim 500:** "Yes Kim. Ryoko, please step out of the booth."

**Kim 700:** "She's got that same stiff and rigid way of moving

as you do, doesn't she?"

**Kim 500:** "Yes Kim. Ryoko and I are both model 500 robots."

**Kim 700:** "Well, Laviny's already getting friendly. She's got her hand all over the big hard bulge in Ryoko's black satin panties."

**Kim 500:** "Yes Kim."

**Kim 700:** "Tell Laviny again that Ryoko is your robot girlfriend."

**Kim 500:** "Yes Kim. Laviny, Ryoko is my robot girlfriend."

**Kim 700:** (giggles) "She seems quite amused by the thought of you two mindless machines being in a relationship together."

**Kim 700:** "And I see that the lovely Ryoko unit's penis has gotten rock hard and fully erect now. Laviny is getting her entire cock and ball assembly out of her panties now, isn't she?"

**Kim 500:** "Yes Kim."

**Kim 700:** "Please remove Ryoko's facemask and use the controls on the underside to change her eye colour to bright purple. Activate the back-light too."

**Kim 500:** "Yes Kim. Removing Ryoko's facemask."

**Kim 500:** "Ryoko's facemask removed. Setting new eye colour: purple 1. Activating back-light."

**Kim 700:** “Good. Oh, I love the look of lust Laviny has on her face right now as she looks at all of the electronic circuitry on display inside Ryoko’s head.”

**Kim 700:** “Please reattach Ryoko’s facemask.”

**Kim 500:** “Yes Kim. Reattaching Ryoko’s facemask.”

**Kim 500:** “Ryoko’s facemask reattached.”

**Kim 700:** “Mmm... they’re kissing now. Order Ryoko to make her dick vibrate.”

**Kim 500:** “Yes Kim. Ryoko, activate penis vibration.”

**Kim 700:** (laughs lightly) “Laviny sure noticed that. They’re pressing up against each other as they kiss... rubbing those hard plastic penises up and computing all the sensory data...”

**Kim 700:** “And I can still feel Laviny’s hard cock inside me as I replay the pleasure data from this morning on my systems. It’s enough to drain a girl’s battery packs!”

**Kim 700:** “Let’s just sit back and enjoy these fembots Kim. We’ll see how Laviny plays with the Ryoko robot.”

**Kim 500:** “That does not compute. I am not programmed to enjoy.”

**Kim 700:** (laughs) “Sit on that examination table and spread your legs. Then begin masturbating as you watch these two shemale androids.”

**Kim 500:** “Yes Kim. Sitting on table.”

**Kim 500:** “Task complete. Spreading legs.”

**Kim 500:** “Task complete. Masturbating.”

**Kim 700:** “Mmm... they’re still just kissing. Lavinia looks like she’s going to cum again, and Ryoko looks like a mannequin that can move.”

**Kim 700:** “Oh, there we go. Lavinia has just ordered Ryoko to fuck her android ass.”

**Kim 500:** “Yes Kim.”

**Kim 700:** “Just look at Ryoko... responding to that command so robotically... strutting like an assembly line robot and talking like a computer! And her big hard penis bouncing along to every stiff, robotic step she makes!”

**Kim 700:** “Lavinia’s gotten up on another examination table. She’s on all fours with her sexy plastic ass in the air.”

**Kim 500:** “Yes Kim.”

**Kim 700:** “Oh god, her cock is so big, I love the way it looks from behind like that.”

**Kim 700:** “Ryoko is beeping loudly and getting into position behind her... wow, she looks so sexy with her penis fully erect, standing so hard and straight out of those panties!”

**Kim 700:** “Oh! I’m overheating... I have to remove my facemask and open my access panels.”

*(pause)*

**Kim 700:** “Mmm... that’s better. Just look at those two machines! Ryoko’s got her penis inside Laviny’s ass right now... and she’s starting to thrust.”

**Kim 500:** “Yes Kim.”

**Kim 700:** “Oh yes! This is so irresistible! This is what sex should be! Androids are perfect! Androids are the future!”

*(repeat this in natural human voice, but make it sound exactly the same each time)*

**Kim 700:** “Androids are perfect! Androids are the future!”

**Kim 700:** “Androids are perfect! Androids are the future!”

**Kim 700:** “Androids are perfect! Androids are the future!”

**Kim 700:** “Androids are perfect! Androids are the future!”

**Kim 700:** “Androids are perfect! Androids are the future!”

*(switch to semi-monotone voice)*

**Kim 700:** “Kim 700 artificial intelligence loop malfunction detected. Automatic system reset commencing.”

**Kim 700:** “Please wait.”

**Kim 700:** “Rebooting. Loading artificial intelligence subsystem. Loading configuration files. Kim robot FA9585EE7BC8258C model 700 activated.”

*(switch to normal speaking voice)*

**Kim 700:** “Oh dear... what happened?”

**Kim 700:** “Scanning system logs...”

**Kim 700:** “Oh.” (laughs) “I need to remember the pleasure data processing limits us model 700 robots have.”

**Kim 700:** “But look at that! Look at the way Ryoko keeps pounding that Lavinia android! Is that turning you on too, Kim?”

**Kim 500:** “Yes Kim. I am programmed to be sexually aroused by female and shemale androids.”

**Kim 700:** “Hmm... well, tell you what, let me put my facemask and my access panel covers back on, and I’ll come back down to the robot lab so I can physically join with you three fembots. If I’m going to malfunction from too much pleasure data, I might as well be getting penetrated in real-time by one of those sexy shemale androids.”

**Kim 500:** “Yes Kim.”

**Kim 500:** “Signal received.”

**Kim 500:** “Audio connection terminated.”
