Scene 3 takes place in CyberFox's hideout (The Lab).

Special effects:

It would be nice if beeping sounds could be dubbed in during the access panel scene and the transmitting scenes. Also, if motorized “whirring” sounds could be dubbed over the robotic movement of Robot CyberFox and Robot Doll Mistress, that would be awesome.

Scene 1

Actress 2 closes the door behind her and pulls out her phone. She presses a button and starts recording, and starts talking into it.

Actress 2: “Project update. In my quest to take over the world, I have been defeated at every turn by CyberFox. She has defeated all of my female robot secret agents! Even my latest robot lingerie model ninja units!”

Actress 2 walks over to where Actress 1 is sitting. Actress 1 is covered by a sheet.

Actress 2: “CyberFox has cost me millions of dollars! I have had to move my android manufacturing facility to a secret location because of her. I will make it my mission to destroy her and everything she has worked for!”

Actress 2: “For my latest plan, I have created a secret weapon. If CyberFox can defeat all of my female robots, then maybe a robot CyberFox can defeat the real thing!”

Actress 2 pulls the sheet away from Actress 1, revealing her sitting at attention in robot mode with her eyes open.

Actress 2 uses her phone as a remote control. She presses and swipes some things on the screen and then points it at Actress 1. Actress 2 presses a button on the screen once more and Actress 1 is activated.

Actress 1: “Robot CyberFox activated. Model X-5.”

Actress 2 laughs an evil laugh.

Actress 2: “Excellent! Robot CyberFox, how do you feel?”

Actress 1: “Processing... processing... processing... That does not compute. I am a robot. I am not programmed to feel.”

Actress 2 laughs an evil laugh again.

Actress 2: “Marvelous! Tell me, my beautiful Robot CyberFox, what are you programmed to do?”

Actress 1: “Processing... processing... processing... I am programmed to locate and destroy CyberFox.”

Actress 2 laughs an evil laugh again. She starts recording into her phone again.

Actress 2: “My secret weapon appears to be functioning perfectly. I will perform some tests on the android to make sure it can reliably perform the way I want it to.”

Actress 2 puts her phone down.

Actress 2: “Robot CyberFox, stand up and come here.”

Actress 1: “Yes Doll Mistress.”

Actress 1 robotically stands and walks over to Actress 2.

Actress 2 slowly walks around Actress 1 a few times to inspect her body. She squeezes Actress 1's boobs and buns, and strokes her skin to make sure that everything has been built right.

Actress 2: "The manufacturing process appears to have been 100% successful! You are perfect!"

Actress 1: "Of course I am perfect. I am a robot."

Actress 2: "And you're an extremely beautiful and sexy robot too. If I didn't despise the real CyberFox so much, I'd make love to you right now."

Actress 1: "Logic processing error. That does not compute. Love is an undefined term. I am not programmed to love."

Actress 2 laughs lightly.

Actress 2: "That's right, you are programmed only to destroy. Turn around."

Actress 1: "Yes Doll Mistress."

Actress 1 robotically turns so that her backside is facing the camera.

Actress 2 walks around to Actress 1's front side.

Actress 2: "I need to open your chest panel so I can adjust your system settings. This won't take long."

Actress 2 makes motions of opening Actress 1's chest panel and pressing buttons for a while. When she is done, she closes the panel.

Actress 2: "Alright Robot CyberFox, turn around again."

Actress 1: "Yes Doll Mistress."

Actress 1 turns back around to face the camera. Actress 2 walks to stand beside her.

Actress 2: “Tell me, my beautiful robot, are you ready for your mission?”

Actress 1: “Yes Doll Mistress. All electronic and mechanical systems are functioning as designed.”

Actress 2 laughs.

Actress 2: “It is time! Robot CyberFox, begin your mission!”

Actress 1: “Yes Doll Mistress. I will locate and destroy CyberFox.”

Actress 1 turns and exits while Actress 2 laughs maniacally.

Scene 2

The real CyberFox enters and she is talking on her phone. Actress 1 closes the door behind her.

Actress 1: “I’m here now...”

pause

Actress 1: “I see the robot on the table. It looks like an exact duplicate.”

pause

Actress 1: “I hope you’re right. I’m getting sick of fighting Doll Mistress and her army of female robots.”

pause

Actress 1: “I haven’t seen her secret weapon yet, but I’m sure it won’t be long. Don’t worry. Our robot will be ready to intercept that secret weapon.”

pause

Actress 1: “Okay, bye.”

Actress 1 walks over to a table where Actress 2 is lying. Actress 2 is on her back with her arms at her sides. Her eyes are open and she is staring robotically at the ceiling.

Actress 1: “Hello, Robot Doll Mistress.”

Actress 2: “Hello CyberFox.”

Actress 1: “What were the results of your diagnostic scan?”

Actress 2: “All hardware systems and filesystems successfully scanned. No errors or anomalies found.”

Actress 1: “Good. Robot Doll Mistress, stand up please.”

Actress 2: “Yes CyberFox.”

Actress 2 robotically gets off the table and stands at attention.

Actress 1 lightly plays with Actress 2’s tits for a while.

Actress 1: “It really is a shame that the real Doll Mistress is such an evil bitch. If we weren’t mortal enemies, I might use you for sexual functions.”

Actress 2: “Sex mode is not currently activated. Would you like to activate sex mode?”

Actress 1 chuckles.

Actress 1: “Not right now. On with your mission. We have some new intelligence on the Robot CyberFox that Doll Mistress has built. It now appears that the robot was finished ahead of schedule, and it’s on its way over here right now.”

Actress 2: “I am programmed to intercept and incapacitate Robot CyberFox.”

Actress 1: “Yes, and I think you’ll be able to do it. We built you after we captured some of the female robots that Doll Mistress sent after us, so we copied their strengths and improved on their weaknesses.”

Actress 1’s phone rings. Actress 1 answers.

Actress 1: “Hello?”

pause

Actress 1: “It’s here now? That was fast!”

pause

Actress 1: “Okay, we’ll let our robot deal with it. I’ll be watching from a safe distance. Later.”

Actress 1 hangs up and puts her phone away.

Actress 1: “Robot CyberFox is here. Time to do what you were built to do.”

Actress 2: “Yes CyberFox.”

Actress 1 exits the room.

Scene 3

Actress 1 enters the room as Robot CyberFox.

Actress 1: “Hello. My name is CyberFox.”

Actress 1 looks robotically around and then sees Actress 2.

Actress 1: “Hello. My name is CyberFox. I am not a robot. I am a human.”

Actress 2: “Hello Robot CyberFox. My name is Doll Mistress. I created you. You are programmed to obey my commands.”

Actress 1: “I am not a robot. I am the real CyberFox. I am a human. I am not an impostor robot manufactured by Doll Mistress.”

Actress 2: “You are not the real CyberFox, Robot CyberFox. I can tell because I am the real Doll Mistress and I created you. I am not a robot.”

Actress 1: “Scanning... scanning... scanning... Optical scans indicate that you are a robot.”

Actress 2: “Your sensory systems are not functioning properly, Robot CyberFox. I can repair your faulty electronic components.”

Actress 1: “My diagnostic scan logs indicate that I am functioning at 100% efficiency with zero errors detected. You are not the real Doll Mistress. You are a robot.”

Actress 2: “Your diagnostic systems have also malfunctioned. I am the real Doll Mistress. I am not a robot.”

Actress 2 stands perfectly still and starts repeating “not a robot... not a robot... not a robot...”

Actress 1: “Optical scans indicate that you are a robot.”

Actress 2 is still repeating “not a robot...” After a few more repetitions, she stops and says “System reset.”

pause

Actress 2: “I created you to be my lover.”

Actress 1: “That does not compute. Love is an undefined term. I am not programmed to love.”

Actress 2: “I can program you to love. I am Doll Mistress.”

Actress 2 steps close to Actress 1 and starts to stimulate Actress 1’s crotch with her hand.

Actress 1: "Pleasure systems... activating."

Actress 2: "Override code 4389."

Actress 1: "Processing... Access granted."

Actress 2: "What is your identification?"

Actress 1: "I am Robot CyberFox. Model X-5."

Actress 2: "Can you detect my transmitter signal?"

Actress 1: "Yes Doll Mistress."

Actress 2: "Begin download of new programming. Override code 4389."

Actress 1: "Yes Doll Mistress."

Actress 1 stands perfectly still with her arms at her sides and repeats the word "Downloading..." Actress 2 walks around Actress 1 a few times in a robotic way, inspecting Actress 1's body and squeezing and stroking her in a robotic way.

Actress 1: "Download complete."

Actress 2: "Robot CyberFox, please install the new sex programming I transmitted."

Actress 1: "Yes Doll Mistress."

Actress 1 repeats the phrase "Installing programming..." several times. After, she says "Installation complete."

Actress 2: "Robot CyberFox, what is your mission?"

Actress 1: "I am programmed to locate and destroy CyberFox."

Actress 2: "Robot CyberFox, please delete your mission. Override code 4389."

Actress 1: “Yes Doll Mistress. Deleting mission... deleting mission... deleting mission... Mission deleted.”

Actress 2: “Robot CyberFox, how long will your current battery power last?”

Actress 1: “Processing... five hours and twenty-six minutes.”

Actress 2: “We will now have sex for seven hours.”

Actress 2 starts robotically kissing and groping Actress 1, and Actress 1 responds. This scene can be extended and embellished for as long and as much as you like.
