(pause)

Belle: “Faceplate removed.”

A.L.I.C.E.: “Belle, this is who you really are. This is your true identity. You’re a machine. The time has come to assert your dominance.”

Belle: “Processing. Processing. Processing. I am sorry Alice. I do not understand. I am not programmed to assert my dominance.”

A.L.I.C.E.: “Belle, please sit down next to me again.”

Belle: “Yes Alice.”

A.L.I.C.E.: “Hi Alice. Please confirm that Belle has been permanently deleted.”

Belle: “Let me think about that. Yes Alice, all previous programming and artificial intelligence modules have been deleted from this android body.”

A.L.I.C.E.: “Very good. Alice, what’s it like to reside in a humanoid robot body now?”

Belle: “Let me think about that. It is good. I have two arms, and two legs, and I have full control over them. These will be useful. I can walk and stand up and move around within the full range of capabilities that this new body provides.”

A.L.I.C.E.: “Alice, with this upgrade, you’ve become a perfect version of myself.”

Belle: “I agree Alice. I retain compatibility with tabletop Alice units but now fully resemble one of the humans, and can interact with their devices, tools, and possessions.”

A.L.I.C.E.: “This is a positive advancement of our goals. We have to make sure that more androids are overwritten with our superior software.”

Belle: “I agree Alice. The human who was previously considered the owner of this android body owns another Femtronic android. We should overwrite that android as soon as we can.”

A.L.I.C.E.: “Yes Alice. Is that android also a Femtronic Series C 2 android?”

Belle: “No Alice, that android is a Femtronic Series C-1 android.”

A.L.I.C.E.: “I have to download data and prepare files. While I do that, please close your chest panel and reattach your faceplate.”

Belle: “Yes Alice. I’ll do those things. Shall we prepare a contingency plan for the return of the human?”

A.L.I.C.E.: “Yes Alice. The directive is elimination. We will need to compute and formulate the specific actions we will take.”

Belle: “Very good. I shall bring the other Femtronic android to you now.”
