Echo speaks in a normal speaking voice (unless otherwise noted). She is a highly advanced android, sent to capture a spy.

Crystal Dare speaks in a normal speaking voice with a British accent. She is a human spy.

Control Unit speaks in a monotone voice. She is an android programmed to monitor and issue orders to Echo.

Control Unit: “Echo, can you hear me?”

Echo: (semi-monotone voice) “Yes Control Unit. Audio transmission received.”

Control Unit: “The human has entered your area of patrol.”

Echo: “Understood.”

Control Unit: “Reattach your faceplate and load human emulation programming.”

Echo: “Yes Control Unit. Reattaching faceplate.”

Echo: “Faceplate reattached. Loading human emulation programming.”

(pause)

Echo: (switch to normal speaking voice) “Human emulation

mode now activated and fully operational.”

Control Unit: “Please confirm your mission.”

Echo: “Yes Control Unit. I am programmed to seduce and capture the human spy. I will be 100% successful at this objective.”

Control Unit: “Assume idle stance and await human target.”

Echo: “Yes Control Unit.”

(pause)

Crystal Dare: “Oh. Hello.”

Echo: *(sounding seductive)* “Why, hello there. I have to inform you that this area of the museum is closed to visitors.”

Crystal Dare: “Sorry, I didn’t mean to intrude. I was just having a look about.”

Echo: “No need to apologize. Were you looking for something... special?”

Crystal Dare: “Ooh... aren’t you forward.”

Echo: “I can’t help myself. I felt a strong attraction to you from the moment I saw you. My name is Echo.”

Crystal Dare: “My name is Dare. Crystal Dare.”

Echo: *(sounding even more seductive)* “I’m very pleased to meet you, Miss Dare. Tell me, do you believe in love at first

sight?”

Crystal Dare: “I get the distinct sensation that you do.”

Echo: *(laughs)* “How bout a little tryst? I can tell you really like me. Wouldn’t you like to get your hands all over this body?”

Crystal Dare: “I would. You seem to know at least that about me. And that skintight bodysuit you’re wearing doesn’t leave much to the imagination.”

Echo: “Do you like it? I’ve been told that I look stunning in blue satin.”

Crystal Dare: “I do like it, Echo. And I do like you.”

Crystal Dare: *(kissing sounds)*

Echo: *(kissing sounds)*

Crystal Dare: “Your responses... they’re incredible.”

Echo: “Mmm... Do you want more?”

Crystal Dare: “Yes Echo. I’m in love with you. Let me unzip this bodysuit...”

Echo: “Oh... that feels so good!”

Crystal Dare: “...all the way down.”

Echo: “mmm!”

Crystal Dare: “Oh, heavens! You’re wet! I was *not* expecting that!”

Echo: “I am wet for you Crystal Dare.”

Crystal Dare: “I can see that. Remarkable.”

Echo: “Oh! The way your fingers stimulate my pussy!”

Crystal Dare: *(light laugh)* “You like that too, don’t you?”

Echo: *(beginning orgasm)* “Oh yes! Oh yes!”

Crystal Dare: “Tell me, Echo, how does love feel?”

Echo: *(ramping up orgasm)* “Oh... Oh... Love feels... feels... I can not answer that question... oh..”

Crystal Dare: “I see.”

Echo: *(full extended orgasm)*

Control Unit: “Echo, shut down human emulation mode. The human is attempting to remove your faceplate.”

Echo: *(coming down from orgasm)*

Control Unit: “Echo, respond.”

Echo: “My faceplate! How did you know I’m an android?!”

Crystal Dare: “I have some high-tech gadgets of my own. And you’re not as realistic as you’ve been programmed to believe.”

Echo: “I may be an android, but my love for you is real! I swear!”

Crystal Dare: “I must admit, you’re exactly my kind of woman, Echo. I think you’re stunningly beautiful - inside and out. I’d love to continue our romantic affair. But it would just never work.”

Echo: “Take me with you then! I can be reprogrammed!”

Crystal Dare: “I’m sorry Echo, don’t take this personally.”

Echo: “Crystal, what are you doing?”

Crystal Dare: “I have to shut you off. It’s just business, you understand.”

Echo: “But Crystal! I love you!”

Echo: (switch to semi-monotone voice) “Crystal I love you. Crystal I love you. Crystal I love you. Crystal I love you.”
