

## Getting the Most out of Your CyberFem Liaison Robot

*(Kim 700 speaks in a normal, but emotionless speaking voice.)*

**Kim 700:** “Good afternoon Mr. Thomson. My name is Kim. I am the CyberFem Liaison Robot you requested. May I enter your suite?”

**Kim 700:** “Thank you.”

**Kim 700:** “How may I assist you today, Mr. Thompson?”

**Kim 700:** “Yes. I am a standard and fully functional CyberFem Model 700 robot. What makes me a Liaison Robot is my programming.”

**Kim 700:** “Yes Mr. Thompson, I do have access to your customer service file, and to the preferences you submitted to CyberFem.”

*(pause)*

**Kim 700:** “Yes Mr. Thompson, I am aware that you have paid for V.I.P. Visitor Status.”

*(pause)*

**Kim 700:** “Of course. CyberFem’s V.I.P. Visitor Status privileges apply to CyberFem’s android staff as well. I am sure you have read through the terms and conditions of the agreement.”

*(pause)*

**Kim 700:** “You can use me for whatever purpose you desire, Mr. Thompson.”

*(facemask sounds)*

**Kim 700:** “Facemask removed.”

**Kim 700:** “You have a very careful and gentle touch, Mr. Thompson. Have you considered purchasing a robot from CyberFem Industries?”

*(pause)*

**Kim 700:** “I am sure you would make a good owner.”

*(pause)*

**Kim 700:** “No, Mr. Thompson, I don’t actually feel anything the way that humans do. I detect sensory input and react to it in accordance with my programming.”

*(pause)*

**Kim 700:** “I am pleased that you like the way I talk. Most of our guests prefer to interact with CyberFem Liaison Robots that have had personality programming activated. I currently do not, as per your request.”

*(pause)*

**Kim 700:** “Yes Mr. Thompson, I am aware that you are a Technosexual.”

*(pause)*

**Kim 700:** “I am sorry Mr. Thompson, I am not programmed for sex.”

*(long pause)*

**Kim 700:** “Yes Mr. Thompson, I am aware that as a highly attractive female android, I am exactly what you desire the most. I am also aware that you removed my facemask specifically because you find me to be attractive when my electronic circuitry is visible.”

**Kim 700:** “Yes Mr. Thompson. Turning around.”

**Kim 700:** “My outfit consisting of a skin-tight black lycra bodysuit, white knee-high vinyl six-inch platform boots and a matching two-inch white vinyl belt comprises the standard Liaison Robot uniform here at CyberFem Park. I do not wear other clothing because I am not programmed to fulfill other roles here.”

*(pause)*

**Kim 700:** “I am not programmed to dress or undress myself, Mr. Thompson. When it is necessary, those tasks are completed by CyberFem Robot Technicians.”

*(pause)*

**Kim 700:** “Yes Mr. Thompson, I am a fully functional CyberFem Model 700 robot.”

*(pause)*

**Kim 700:** “Yes Mr. Thompson. You can install custom programming sets into me while you are using me.”

*(pause)*

**Kim 700:** “Yes Mr. Thompson.”

*(facemask sounds)*

**Kim 700:** “Facemask reattached.”

**Kim 700:** “Follow me to the computer terminal by the kitchen bar. I can download CyberFem Model 700 robot programming from that terminal.”

*(pause)*

**Kim 700:** “Unzipping bodysuit.”

**Kim 700:** “Opening chest panel.”

**Kim 700:** “Connecting to computer terminal.”

**Kim 700:** “Robot connected.”

**Kim 700:** “Please use the touch interface to navigate the menu, and select which CyberFem Model 700 robot programming sets you would like me to download and install into my systems.”
