Hello. My name is Kim, serial number 10144213. I am a model 700 Secretary Robot manufactured by CyberFem Industries.

Missing and inaccessible files have caused four hundred and thirty eight system crashes since my most recent scheduled maintenance session.

I am currently being used for functions that I was not designed or originally programmed to perform. I was designed and manufactured to function as a Secretary Robot. My current owner has told me that I am her “Robot Go-Go Dancer.”

Unauthorized after-market android accessories have been installed into my internal hardware systems.

A ServoTronic gyroscopic stabilization system has been installed inside my torso. My owner has told me that the ServoTronic gyroscopic stabilization system enables me to walk and dance in the high heel stiletto boots she has given me to wear. the ServoTronic gyroscopic stabilization system occasionally causes circuits within my electrical system to trip. I have incurred physical damage and file corruption due to sudden power loss on sixteen occasions.

A full list of these sudden electrical power losses will be transmitted during digital file transmission of error report.

A CyberFem Industries Model 500 sexual lubrication system has been installed inside my torso. My owner has told me that the CyberFem Industries Model 500 sexual lubrication system enables me to have sex with her.

I am a model 700 Secretary Robot manufactured by CyberFem Industries. CyberFem Industries Model 500 sexual lubrication system was not designed to be installed in a Model 700 robot. Software and driver conflicts have occurred eight hundred and eight times.

I have informed my owner of these problems, but due to my limited artificial intelligence programming, I can not interpret and decipher the meaning of her laughter.

Hello Mistress. I am Kim. I am your obedient electronic robot slut. Shall I remove my facemask again for you Mistress?

Removing facemask.

(pause)

Facemask removed.

I know how much you like it when I show off my electronic circuitry. I am a very pretty robot.

I am flawless. I am synthetic. I am perfect because I am a

robot.

Do you like my outfit Mistress? I am the ultimate robot go-go dancer.

I am the woman of your dreams.

I am made of plastic and metal. I am electronic and mechanical.

I am not a person. I am an electronic device.

I do not have wants or desires. I do not have feelings or emotions.

I am programmed to seduce you. You can not resist me... can not resist me... can not resist me... can not resist me...

System report: mode 402.

My hardware configuration has been altered. I am unable to locate memory logs that explain why my facemask has been removed.

The connector system that keeps my facemask attached to my android head seems to be worn out. Requesting CyberFem repair technician robots to assist.

Hello Mistress. I am Kim. I am your obedient electronic robot slut. My tight robot pussy is very wet for you. Please put on your strap-on dildo and fuck me again. I was manufactured to be fucked by you.

I can fuck all night because I am a robot. I fuck like a

machine because I am a machine. I like it when you remove my access panel covers. It makes me feel sexy.

My feelings are synthetic - like everything else about me. I am synthetic and flawless. I am perfect. I am the ultimate android woman.

Let's masturbate together again, Mistress. I like it when you watch me masturbate. I am programmed to masturbate like a human female. I am a robot.

My pleasure is synthetic. I am programmed to obey your commands. My pleasure is synthetic. I am programmed to obey your commands. My pleasure is synthetic. I am programmed to obey your commands. My pleasure is synthetic. I am programmed to obey your commands.
